

## Green shipping boost environmental protection

**COSCO SHIPPING LINES** signed LSFO supply agreement with Double Rich Limited on 28th of March, 2019. According to the agreement, Double Rich limited will provide fuel oil with sulfur content not exceeding 0.5% m/m conforming to the regulation of International Maritime Organization (IMO) for **COSCO SHIPPING LINES** in order to assist the fleets of **COSCO SHIPPING LINES** to better fulfill the amendment of ANNEX VI in International Convention for the Prevention of Pollution from Ships (MARPOL), which has been adopted by IMO.

By keeping promoting and applying diverse and advanced emission reduction technology and optimizing management pattern, **COSCO SHIPPING LINES** will try their best to push forward to realize GREEN SHIPPING. Signing the LSFO supply agreement is an important measure of **COSCO SHIPPING LINES** actively fulfilling MARPOL of IMO, initiatively confronting industry trends and adhering to GREEN development.

Facing MARPOL 2020 regulation to be taken effected, **COSCO SHIPPING LINES** actively prepares and achieves LSFO resource by multi-sourcing. Meanwhile, **COSCO SHIPPING LINES** closely follows main stream market and implements the research, development and application of ship desulfurization technology.

On the basis of pilot installation of scrubbers for 2 vessels, more vessels will be further promoted to install scrubbers. In the future, **COSCO SHIPPING LINES** will comprehensively fulfill international conventions and practice GREEN concept by cooperating with partners and global major fuel suppliers sulfurization technology.

*March 2019*
